FOR IMMEDIATE RELEASE

360IT PARTNERS Named One of the Top 200 Managed Services Providers in the World

Virginia Beach, VA, August 27, 2018 – For the fourth time, 360IT PARTNERS was named to Channel Futures' annual MSP 501 list. They jumped up 13 positions from 2017's list and were ranked number 185 out of 501 Managed Service Providers (MSPs) of Information Technology services in the world. This list recognizes top MSPs based on a range of metrics including annual managed services revenue growth, revenue per employee, managed services offered and the number of customer devices managed.

“As the IOT (Internet of Things) and the number of devices businesses are managing continues to increase, we have to work even harder to keep our clients' networks secure,” said Martin Joseph, president. “Being a managed services provider allows us to move extremely quickly in terms of response time as well as in the adoption of new technology - all with our clients' uptime in mind.”

“This year’s applicant pool was the largest and most diverse in the history of the survey, and our winners represent the health and progressivity of the managed services market,” says Kris Blackmon, Channel Futures content director and editor of the MSP 501. “They’re growing their revenue, expanding their customer influence and exploring new technology that will propel them for years to come.”

Channel Futures MSP 501 is the IT channel’s largest and most comprehensive ranking of leading managed service provider (MSP) organizations worldwide.

360IT PARTNERS, serving Hampton Roads, Virginia provides flat fee IT support management and network maintenance to small and medium businesses.
